

# HPE Quality Center Team Edition on Software as a Service

## Key benefits

- Predictability to IT expenditure and service-level objectives (SLOs)
- On-demand scalability, multi-layer security, and 24x7 support
- Start within one business day
- Self-service administration
- Multi-tenant architecture
- Access to latest technology and HPE innovation

## At a glance

Hewlett Packard Enterprise Quality Center (QC) Team Edition Software as a Service offering is an on-demand Software as a Service (SaaS) solution for quality management. Based on HPE Quality Center Enterprise, the solution is run from HPE data center facilities with 24x7 remote support.

Part of the HPE Application Lifecycle Management (ALM) portfolio, HPE Quality Center Team Edition allows the customer to build high-quality applications quickly and effectively by providing a consistent, repeatable process for gathering, planning, and scheduling tests, analyzing results, and managing defects and issues.

Built on HPE Quality Center Enterprise, HPE QC Team Edition on SaaS offering enables project teams to start using the right toolset in expeditious fashion. Based on the aspects of quality management that are essential to running projects, quality assurance teams can subscribe to the modules they need for as long as they need them, and scale up and down as the project evolves. HPE QC Team Edition on SaaS offering is available on a subscription basis and provides flexibility to customer organizations.

HPE QC Team Edition on SaaS offering is available within one business day after booking the purchase order in the HPE order management system. HPE QC Team Edition on SaaS offering comes with on-demand trainings and a self-service administration console.
